DISEÑO DE LA LISTA DE MEDICAMENTOS / *DRUG LIST DESIGN*

¿Cómo usar esta lista de medicamentos? / *How do I use the drug list?*

La forma más fácil para conseguir los medicamentos es buscando en el índice. El índice provee una lista por orden alfabético de todos los medicamentos que se presentan en este documento, tanto los de marca como los genéricos. Al lado del medicamento está el número de la página donde encontrarás cómo está cubierto. Busca la página indicada en el índice y encuentra el nombre del medicamento en las columnas.

The easiest way to find the drugs is through the Index. The Index gives you an alphabetical list of all the drugs in this document, both brand name and generic drugs. Next to the drug, you will see the page number where you can find the coverage information. Turn to the page listed in the Index to find the name of the drug listed in the columns.

Los medicamentos se clasifican por niveles. Los niveles a continuación identifican los distintos niveles de costo compartido, o sea, lo que pagas por cada medicamento en la receta.

- Nivel 1 – medicamentos genéricos
- Nivel 2 – medicamentos de marca preferidos
- Nivel 3 – medicamentos de marca no preferidos
- Nivel 4 – medicamentos especializados preferidos
- Nivel 5 – medicamentos especializados no preferidos
- Nivel 6 – medicamentos de cuidado preventivo
- Nivel 7 – medicamentos sin receta (OTC)
- Nivel 8 – vacunas

The Drug List is arranged by levels. These levels, listed below, point out the cost-sharing levels, which is what you pay for each prescribed drug.

- *Level 1 – generic drugs*
- *Level 2 – preferred brand drugs*
- *Level 3 – non-preferred brand drugs*
- *Level 4 – preferred specialty drugs*
- *Level 5 – non-preferred specialty drugs*

- *Level 6 – preventive care drugs*
- *Level 7 – over-the-counter (OTC) drugs*
- *Level 8 – vaccines*

¿Qué son medicamentos genéricos preferidos (Nivel 1)? / *What are preferred generic drugs (Level 1)?*

Un medicamento genérico tiene el mismo ingrediente activo en la fórmula que el de marca. Usualmente cuestan menos que los de marca y están aprobados por la Administración Federal de Drogas y Alimentos (FDA, por sus siglas en inglés).

A generic drug has the same ingredient in identical amount as the brand name drug. They cost less than brand name drugs and are approved by the Food and Drug Administration (FDA).

Este nivel incluye genéricos que han sido seleccionados por el Comité de Farmacia y Terapéutica luego de su evaluación de seguridad, eficacia y costo.

This level includes generic drugs selected by the Pharmacy and Therapeutics Committee after evaluating their safety, efficiency, and cost.

Éstos están escritos en letras minúsculas (ejemplo, nabumetone).

Generic drugs are listed in lowercase (e.g., nabumetone) in the Drug List.

¿Qué son medicamentos de marca preferidos (Nivel 2)? / *What are preferred brand drugs (Level 2)?*

Este nivel incluye medicamentos de marca que han sido seleccionados por el Comité de Farmacia y Terapéutica como agentes preferidos luego de su evaluación de seguridad, eficacia y costo. Los mismos están identificados a la derecha como nivel 2. En aquellas clases terapéuticas donde no hay genéricos, te exhortamos a que uses como primera alternativa aquellos identificados como preferidos.

This level has brand name drugs that have been classified by the Pharmacy and Therapeutics Committee as preferred agents, after an in-depth review in terms of safety, efficiency, and cost. These are identified as level 2 next to the name of the drug. For therapeutic classes where there are no generic drugs, we suggest you use the preferred drugs as your first choice.

¿Qué son medicamentos de marca no preferidos (Nivel 3)? / *What are non-preferred brand drugs (Level 3)?*

Un medicamento es clasificado como marca no preferido porque existen alternativas en los niveles anteriores con menos efectos secundarios o son más costo-efectivos.

A brand name drug is classified as non-preferred when there are other choices in other drug levels that have fewer side effects and/or are more cost effective.

¿Qué son productos especializados preferidos (Nivel 4)? / *What are preferred specialty products (Level 4)?*

Los medicamentos especializados requieren una administración o manejo especial, por su composición compleja. Estos se usan para tratar condiciones crónicas y de alto riesgo que requieren un manejo especial de la condición.

Specialty Drugs need special administration and/or management due to their complex composition. These are used to treat high-risk and chronic health conditions that need special management.

Este nivel incluye medicamentos o productos genéricos, biosimilares (genéricos de productos biológicos) y de marca a un costo menor que el nivel 5.

This level has generic, biosimilar (generic biologics), and brand name drugs at a lower cost than those in level 5.

¿Qué son productos especializados no preferidos (Nivel 5)? / *What are non-preferred specialty products (Level 5)?*

Los medicamentos en este nivel 5 también tienen un arreglo especial para su despacho, pero tienen un costo mayor que los del nivel 4. Éstos se usan para el tratamiento de condiciones crónicas y de alto riesgo que requieren una administración y manejo especial.

The drugs in level 5 also require special handling for supply but have higher copay when compared to level 4 drugs. These are used to treat chronic and high-risk health conditions that need special handling and administration.

¿Qué son medicamentos de cuidado preventivo (Nivel 6)? / *What are preventive care drugs (Level 6)?*

Este nivel incluye medicamentos que han sido seleccionados por el Comité de Farmacia y Terapéutica como agentes de cuidado preventivo luego de su evaluación de seguridad, eficacia y costo. Los mismos están identificados a la derecha como nivel 6.

This level has drugs that have been classified by the Pharmacy and Therapeutics Committee as preventive care agents, after an in-depth review in terms of safety, efficiency, and cost. These are identified as level 6 next to the name of the drug.

¿Qué son medicamentos sin receta (OTC) (Nivel 7)? / *What are over-the-counter (OTC) drugs (Level 7)?*

Este nivel incluye medicamentos sin receta (OTC) que han sido seleccionados como parte del programa OTC de su beneficio. Los mismos están identificados a la derecha como nivel 7.

This level has over-the-counter (OTC) drugs that have been selected as part of the OTC program of your benefit. These are identified as level 7 next to the name of the drug.

¿Qué son vacunas (Nivel 8)? / *What are vaccines (Level 8)?*

Este nivel incluye vacunas que han sido seleccionadas por el Comité de Farmacia y Terapéutica como medicamentos de cuidado preventivo luego de su evaluación de seguridad, eficacia y costo. Los mismos están identificados a la derecha como nivel 8.

This level has vaccines that have been selected by the Pharmacy and Therapeutics Committee as preventive care drugs, after an in-depth review in terms of safety, efficiency, and cost. These are identified as level 8 next to the name of the drug.

Guías de Referencia / *Reference Guidelines*

Medicamentos que requieren preautorización (PA) / *Medications requiring prior authorization (PA)*

En un esfuerzo por garantizar la seguridad y el uso apropiado de los medicamentos, algunos necesitan una preautorización para ser adquiridos. Los mismos se han identificado a la derecha con **PA** (**requiere preautorización**), en cuyo caso, la farmacia gestiona la preautorización previo al despacho del medicamento.

*To guarantee the safe and effective use of drugs, there are certain drugs that need a prior authorization (**PA**) before dispensing it. A **PA** is placed next to the name of the drug to identify them, and the pharmacy will process the prior authorization before dispensing it.*

Aquellos medicamentos que han sido identificados que requieren preautorización deben satisfacer los criterios clínicos establecidos según lo haya determinado el Comité de Farmacia y Terapéutica. Estos criterios clínicos se han desarrollado de acuerdo a la literatura médica actual.

Drugs identified as needing prior authorization should fulfill the clinical criteria, as determined by the Pharmacy and Therapeutics Committee. The criteria have been developed as stated by current medical literature.

Programa de Terapia Escalonada (ST) / *Step Therapy Program (ST)*

En algunos casos, requerimos que utilices primero un medicamento como terapia para tu condición antes de que cubramos otro para esa condición (Terapia Escalonada, *ST* por sus siglas en inglés). Por ejemplo, si el Medicamento A y el Medicamento B se usan ambos para tratar tu condición médica, nosotros requerimos que utilices primero el Medicamento A. Si el Medicamento A no te funciona, entonces cubrimos el Medicamento B.

In some cases, you need to try one drug first to treat your health condition before we cover other drugs for the same condition (Step Therapy). For example, if Drug A and Drug B both treat your health condition, you may need to use Drug A first. If Drug A does not work for you, then we will cover Drug B.

Límites de cantidad (QL) / *Limits on the amount to be dispensed (QL)*

Ciertos medicamentos tienen un límite en la cantidad a despacharse. Estas cantidades se establecen de acuerdo a lo sugerido por el manufacturero como la cantidad máxima adecuada que no está asociada a efectos adversos y la cual es efectiva para el tratamiento de una condición. En el área de Requisitos de la lista de medicamentos se identificaron los límites en la cantidad a despacharse, en aquellos que aplique.

Certain drugs have a limit on the amount to be dispensed. These amounts are established according to the manufacturer's recommendation for adequate amounts to avoid adverse effects and effectively treat a health condition. The Requirements column in the Drug List points out the quantity limits for applicable drugs.
